React.js
Git/GitHub

Design & UI/UX

- Figma & Prototyping
- Adobe Photoshop
- Adobe Illustrator
- Design Systems

LANGUAGES

Bahasa Indonesia	Native
English	Intermediate

PROFILE SUMMARY

I am a hybrid professional with 4 years of background in visual design, now actively transitioning into **Front-End Engineering**. I specialize in bridging the gap between design fidelity and code quality. My strength lies in building functional, minimalist interfaces using modern stacks like **Laravel, React, and Tailwind CSS**, ensuring every pixel serves a user-centric purpose.

⚙️ ENGINEERING PROJECTS

Mono Stock Dashboard

[GitHub](#)

A minimalist inventory management system built without frameworks to demonstrate mastery of core DOM manipulation.

[Vanilla JS](#)[HTML5 Canvas](#)

Kalcer.id

[Live Demo](#)

Viral hangout monitoring application featuring a custom virality algorithm and personality-based filtering.

[Laravel 11](#)[MySQL](#)[Tailwind](#)

🏗 EXPERIENCE

Graphic & UI Designer

2021 – 2023

Royal Rinjani

- Designed responsive UI layouts for mobile & web apps, improving user engagement metrics.
- Developed comprehensive design systems that reduced developer hand-off time by 30%.

Digital Marketing Manager

2019 – 2020

PT Farhan Surya Indah

- Optimized web assets and SEO strategies to drive organic traffic growth.
- Maintained strict brand consistency across all digital touchpoints.
